As one of America’s leading educators on dementia, Teepa Snow has developed a dementia care philosophy reflective of her education, work experience, medical research, and first-hand caregiving experiences. She provides dementia education and training sessions to caregivers, organizations, and healthcare professionals throughout the country. Teepa is an advocate for those living with dementia and has made it her personal mission to help families and professionals better understand how it feels to be living with such challenges and seeks to change and improve life for everyone involved.
